1. NATURE OF BUSINESS AND CONTINUING OPERATIONS

Nation Gold Corp. (“the Company”) was incorporated on May 19, 2017 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is 750-1095 West Pender Street, Vancouver, British Columbia, Canada.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at January 31, 2023, the Company had not yet determined whether the Company’s mineral property asset contains ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

During the year ended April 30, 2022, the Company filed its final prospectus with the Canadian Securities Exchange (the “CSE”). On December 30, 2021, the Company completed its initial public offering (“IPO”) of 5,000,000 common shares of the Company at a price of \$0.25 per common share for gross proceeds of \$1,250,000. As consideration for the services provided by the agent to the Company (the “Agent”), the Agent received a cash commission of \$100,000, a corporate finance fee of \$30,000 and received \$20,000 for reimbursed legal and related costs. Additionally, the agent and their selling group received a total of 400,000 common share purchase warrants (the “Agent Warrants”). Each Agent warrant entitles the warrant holder to purchase one common share at a price of \$0.25 until December 29, 2023.

As at January 31, 2023 the Company had an accumulated deficit of \$794,878 (April 30, 2022 - \$709,922) which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs. These unaudited condensed interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these unaudited condensed interim financial statements.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. At this point, the impact on the Company has been minimal. The Company continues to monitor the situation and is taking all necessary precautions in order to follow rules and best practices as set out by the federal and provincial governments.

2. BASIS OF PRESENTATION

These unaudited condensed interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”), and in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”). These unaudited condensed interim financial statements should be read in conjunction with the audited financial statements and notes for the year ended April 30, 2022, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies followed in these unaudited condensed interim financial statements are consistent with those applied in the Company’s audited financial statements for the year ended April 30, 2022.

FOR THE NINE MONTHS ENDED JANUARY 31, 2023 AND 2022

(Unaudited)

2. BASIS OF PRESENTATION (continued)

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

These unaudited condensed interim financial statements have been prepared on a historical cost basis and have been prepared using the accrual basis of accounting except for cash flow information. These unaudited condensed interim financial statements are presented in Canadian dollars, unless specifically indicated otherwise, which is the Company's functional currency.

3. ADOPTION OF NEW ACCOUNTING STANDARDS, INTERPRETATIONS AND AMENDMENTS

The Company has performed an assessment of new standards issued by the IASB that are not yet effective. The Company has assessed that the impact of adopting these accounting standards on its financial statements would not be significant.
